

ANDREA

“The first step to progress is being open to change”

Ricardo Morant
ANDREA HOUSE FOUNDER

At Andrea House we have been building a **brand with its own distinct look** for more than 25 years, the Andrea look: **items with added value** capable of transforming a house into a home with soul. From the heart of Barcelona, we create a **constantly evolving catalog** to offer a completely fresh approach. Today, we have over **1,600 products** distributed in **more than 50 countries** worldwide.

We are committed to providing **personal service and transparency** in everything we do. We reinvent ourselves collection after collection to **adapt to the movement of each**

moment, because we understand that flexibility is another way to achieve success.

We focus our energy on the search **for unique and singular pieces** that have a story to tell. We are fascinated by stories that speak of **craftsmanship**, handmade finishes, recyclable **natural materials**, and **sustainability**.

Therefore, the **new collection 2024** is a careful selection of **pieces with their own story** and a nonconformist spirit.

The **2024 collection** is inspired by emotions that have been brewing over recent years. There is a **realignment of values**, an evaluation of priorities. The **intention to preserve our habitat and culture**, as well as a sense of community and solidarity, are ahead of disproportionate consumption.

Looking towards the future with energy from the roots that sustain us.

Affection, wellbeing and calm are the axis on which the products are made. With lovely designs, **comforting textures, natural materials, organic shapes and relaxing colors** that are found in nature.

Vases inspired by nature

Compositions that provide a sense of presence and elevate the ambience. They steal the show with their organic and irregular shapes, natural materials and neutral colors.

The bedroom as an intimate sanctuary

An inviting and intimate space in which to find personal peace and tranquility. The soft and snuggly textures play a fundamental role, while the solid wood imbues a feeling of harmony.

A minimalist and inviting bathroom.
A space of serenity and elegance designed for relaxing and disconnecting from the outside world.

Characterized by clean lines and a soft color palette in which neutral and green tones prevail.

Woods with a natural finish that pamper the ingredients, and kitchen utensils that bring back traditional materials like rattan, glass, cotton, and porcelain.

01

Home accessories

Ceramics, glass, wood, natural fibers such as cotton or rattan... Nature is the connecting thread in a collection full of great little pieces defined by their organic forms and irregular finishes.

vase Ø15x25 cm

Papier maché is an ancient artisan technique that has evolved over time. A beautiful example is the more modern **technique of cotton maché**. This technique makes the most of cotton fabric leftovers from the **fashion industry** to create a new, recycled, **handmade, and 100% biodegradable material**.

The result? A collection of sustainable, unique products as every item has been individually made by hand. The floral collection also incorporates **natural flower petals** that bring freshness, light, and vitality to the finished item.

Ø20x29.5 cm

Coming back to life again and again. This is the purpose behind our recycled glass collections, as they have been made completely from **post-consumer 100% recycled glass**. This means that these vases were bottles and jars used in homes and they now have a new opportunity thanks to a process that does not involve the use of any additives. A small gesture in home decor symbolizing a beautiful commitment to the environment.

The diverse range of lifestyles in today's society means that, more and more, we're looking for multi-purpose furniture items that don't only serve one function. Smaller homes, co-living, multi-use spaces... This standing mirror that can also serve as a wardrobe, clothes or shoe stand and dressing table is the epitome of this trend.

The new **natural oak** wooden furniture collection is a carefully-selected set of items designed to bring the warmth of the wood and the quality of the oak materials to the home. The drawers include rails, making them easy to open and close, and minimizing wear. What's more, all of the items are **FSC certified**, which guarantees that the wood used to produce them comes from **forests that have been managed responsibly**.

The **Santoku knife** is an essential item for every kitchen. This is a Japanese knife made with **high-quality stainless steel** and designed to bring perfection at **cutting meat, fish, or vegetables**. Ideal for chopping, dicing, brunoise cuts, julienne cuts, and more. **The alveolated shape** of the blade prevents small pieces of food from sticking to it and the ergonomic handle offers unrivalled comfort.
